

tech innovation of the year award

for the period 1 October 2024 to 30 September 2025

UKtech
awards
2025

criteria

Innovation is at the very heart of the tech industry. This award is given to recognise those driving and disrupting the status quo across all industries. The innovation must demonstrate a significant improvement over existing technologies in its field and must represent a major breakthrough or a substantial improvement in the application of technology. The technology must have a clear and sustainable business model, demonstrating commercial viability and a strong path to profitability, and the team behind the technology must demonstrate strong leadership, expertise, and a clear vision for the future of the technology. Overall, the tech innovation award seeks to recognise and celebrate the most innovative, impactful, and scalable technology solutions that are changing the landscape of industry and society.
